

**A federal regulatory approval process for animal health products that encourages innovation and is not overly burdensome and unnecessarily lengthy in time.**

**ACTION ITEMS:**

- Document the current regulatory approval process in the order that it must occur and the time associated with each step in the process.
- Collaborate with industry to make identify potential changes to the regulatory approval process and communicate those with congressional delegation, USDA and FDA.

## Medium Priority Outcomes

---

**Collaborative and coordinated economic development plan surrounding NBAF. The State will continue to provide a presence on the NBAF Economic Strategies Task Force and help lead the strategic focus on making NBAF an economic development attraction asset.**

**ACTION ITEMS:**

- Develop education/information to establish initial outreach and recruit enterprises to support NBAF and provide infrastructure for NBAF.
- Work with Kansas Legislature to pass the agribusiness technology and entrepreneurship district legislation.
- Identify financial resources to provide entrepreneurs with access to capital in start-up phase.

**State-sponsored economic development incentives which meet the needs of lab-based enterprises.**

**ACTION ITEMS:**

- Based on feedback from industry related to existing incentives, draft legislation to address those challenges and create new incentives that work for agriculture.
- Work with Kansas Legislature to pass the agribusiness technology and entrepreneurship district legislation.

**Strong public-private partnerships to recruit to Kansas animal health enterprises that will complement and enhance the research being conducted at NBAF.**

**ACTION ITEMS:**

- Coordinate with the KC Animal Health Corridor as well as local and regional economic development programs to promote Kansas as the knowledge base for animal health and bioscience.
- Work with Kansas Legislature to pass the agribusiness technology and entrepreneurship district legislation.

**Outreach with animal health companies that don't currently have a presence in the United States about opportunities to relocate or expand to do business in close proximity to NBAF.**

**ACTION ITEMS:**

- Coordinate with KC Animal Health Corridor to identify companies.
- Develop education/information to establish initial outreach.

**Partnerships among animal health enterprises, livestock producers and unmanned aerial systems (UAS) developers to incorporate UAS technology into animal health and management plans.**

**ACTION ITEMS:**

- Encourage research and development of UAS technologies to monitor herd health through thermal imaging and to track herd patterns including grazing, calving, nutrition and more.
- Encourage research and development of UAS technologies to deliver pest control products.
- Explore opportunities to incorporate UAS technologies in a foreign animal disease response plan.
