

# Livestock Market & Sales Licensing Guide

The Kansas Department of Agriculture (KDA) is devoted to the total support of agriculture in Kansas. While we must fulfill our statutory obligations, the department is dedicated to providing support and assistance to make Kansas farms, ranches and agribusinesses successful and help them grow if that is their desire. We also encourage more farms, ranches and other agriculture businesses to expand in or relocate to Kansas. This checklist will help guide you through various resources and requirements for opening and operating a typical Kansas livestock market. In addition to license requirements by KDA, other Kansas agencies, as well as local or federal government agencies, may have regulatory requirements to follow. Contact your local planning authority to ensure you follow all local business development laws, rules, regulations and guidelines. This guide is designed to assist you as you work to build and operate a successful livestock market in Kansas.

✓	Department	Description	Renewal
